UNITED STATES OF AMERICA
CIVIL AERONAUTICS BOARD
WASHINGTON, D. C.

Effective: December 15, 1947
Adopted: December 12, 1947

SPECIAL CIVIL AIR REGULATION

LONG-DISTANCE DOMESTIC SCHEDULED AIR CARRIER OPERATIONS

Special Civil Air Regulation Serial Number 361-A, as amended (11 F. R. 7033, 11 F. R. 14569, 12 F. R. 3953), expires December 15, 1947. This regulation provides special operating rules for flights of scheduled air carrier aircraft at altitudes in excess of 12,500 feet east of longitude 100° W. and at altitudes in excess of 14,500 feet west of longitude 100° W. in long-distance operations.

Parts 40, 60, and 61 of the Civil Air Regulations impose undue operating restrictions on long-range, domestic, scheduled air carrier operations under the above conditions. Revisions of these parts which will provide for such operations are now being prepared. It is in the public interest to continue the long-distance operations authorized by Special Civil Air Regulation Serial Number 361-A, as amended, until these revisions are issued.

For the reasons stated above notice and public procedures hereon are unnecessary. Since this regulation imposes no additional burden on any person, it may be made effective without prior notice.

The Civil Aeronautics Board hereby amends Special Civil Air Regulation Serial Number 361-A, as amended, effective December 15, 1947, by extending the termination date thereof from December 15, 1947, to June 15, 1948.

(Sec. 205 (a), 52 Stat. 984; 49 U.S.C. 425 (a))

By the Civil Aeronautics Board:

/s/ M. C. Mulligan
