UNITED STATES OF AMERICA
CIVIL AERONAUTICS BOARD
WASHINGTON, D. C.

Civil Air Regulations Amendment 61-14
Effective: May 1, 1948
Adopted: March 25, 1948

RADIO HEADSETS

Section 61.7804 requires that a radiotelephone headset shall be worn by the first pilot or by a second pilot and the radio tuned to appropriate frequencies at least during the time while the aircraft is in flight or taxiing.

Loud speakers for cockpit use have recently been developed and tested successfully in connection with aircraft radio equipment. It appears that a loud speaker installation offers several advantages over the conventional headset now in use, and the Civil Air Regulations should be amended to permit the use of the loud speaker installation. Other parts of the Civil Air Regulations amply prescribe for the proper use of aircraft radio systems.

Interested persons have been afforded an opportunity to participate in the making of this amendment and due consideration has been given to all relevant matter presented.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 61 of the Civil Air Regulations (14 CFR, Part 61, as amended), effective May 1, 1948, by repealing § 61.7804 thereof.

(Secs. 205 (a), 601, 604, 52 Stat. 984, 1007, 1010; 49 U.S.C. 425 (a), 551, 554)

By the Civil Aeronautics Board:

/s/ M. C. Mulligan
