UNITED STATES OF AMERICA
CIVIL AERONAUTICS BOARD
WASHINGTON, D. C.

21-151

Civil Air Regulations Amendment 15-4
Effective: March 5, 1952
Adopted : January 28, 1952

AIRCRAFT EQUIPMENT AIRWORTHINESS

Present Part 15 of the Civil Air Regulations contains provisions for type certification of equipment used on aircraft. However, the adoption of the policy on Technical Standard Orders which sets up a procedure for approval of materials, parts, processes, and appliances without the necessity of type certification of such items has made unnecessary the retention of any of the provisions of Part 15. The Board therefore is rescinding Part 15.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing the Civil Aeronautics Board hereby rescinds Part 15 of the Civil Air Regulations (14 CFR, Part 15, as amended) effective March 5, 1952.
