TITLE 14-AERONAUTICS AND SPACE

CHAPTER I-FEDERAL AVIATION AGENCY

SUBCHAPTER E-AIRSPACE (NEW)

(Airspace Docket No. 63-WE-40)

PART 71-DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS (NEW)

PART 73-SPECIAL USE AIRSPACE (NEW)

Alteration of Restricted Area and Continental Control Area

The purpose of these amendments to §§ 73.23 and 71.151 of the Federal Aviation Regulations is to designate the Yuma, Arizona, Restricted Area R-2307 as a joint use restricted area and to include it within the continental control area.

The Department of the Army has agreed to the designation of the Los Angeles ARTC Center as the controlling agency of R-2307. This action will provide airspace for public use when R-2307 is not being used for restricted area purposes and in addition will allow the Los Angeles ARTC Center more flexibility in the management of air traffic within the forthcoming area positive control environment.

Since these amendments impose no additional burden on the public, notice and public procedure hereon are unnecessary and they may be made effective immediately.

In consideration of the foregoing, the following actions are taken:

1. In the text of § 73.23, R-2307 Yuma, Arizona, (28 F. R. 19-6, Jan. 26, 1963; 28 F. R. 1794) "Time of designation. Continuous. Using Agency.

Commanding Officer, Yuma Test Station, Yuma, Ariz." is deleted and "Time of designation. Continuous. Controlling agency. Federal Aviation Agency, Los Angeles ARTC Center. Using Agency. Commanding Officer, Yuma Test Station, Yuma, Ariz." is substituted therefor.

2. In § 71.151 (27 F.R. 220-54, November 10, 1962), the following is added:

R-2307 Yuma, Arizona.

These amendments shall become effective upon the date of publication in the Federal Register.

(Sec. 307(a), 72 Stat. 749; 49 U. S. C. 1348).
