TITLE 14-AERONAUTICS AND SPACE

CHAPTER I-FEDERAL AVIATION AGENCY

SUBCHAPTER E-AIRSPACE (NEW)

(Airspace Docket No. 63-SO-13)

PART 71-DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS (NEW)

Designation of Transition Area

On May 11, 1963, a Notice of Proposed Rule Making was published in the Federal Register (28 F. R. 4772) stating that the Federal Aviation Agency proposed to designate a transition area at Tupelo, Miss.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

Subsequent to publication of the Notice, the privately owned radio beacon, which served as the navigation aid for the restricted instrument approach procedure at Tupelo, has been decommissioned. Accordingly, the proposed 700-foot floor transition area extension based on the 230° bearing from the Tupelo Municipal Airport will not be required. This change is reflected in the action taken herein.

The substance of the proposed amendment having been published and for the reasons stated in the Notice, § 71.181 (27 F. R. 220-139, November 10, 1962) is amended by adding the following:

Tupelo, Miss.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Tupelo Municipal Airport

(Airspace Docket No. 63-SO-13)

(Lat. 34° 15' 30" N, Long. 88° 45' 55" W), within 2 miles each side of the Tupelo VOR 215° radial, extending from the 5-mile radius area to 8 miles SW of the VOR; and that airspace extending upward from 1,200 feet above the surface within an 18-mile radius of the Tupelo Municipal Airport.

This amendment shall become effective 0001 EST, August 22, 1963.

(Sec. 307(a), 72 Stat. 749; 49 U. S. C. 1348).

Chief, Airspace Utilization Division
