Regulations of the Administrator and Civil Aeronautics Manuals

September 11, 1950

The Civil Aeronautics Manuals are issued to correspond with and supplement parts of the Civil Air Regulations. The former method of amending the manuals has been replaced by a new series of supplements. Free supplement service is furnished by the Government Printing Office with the purchase of each manual. Supplements published prior to the issuance of a manual are available from the Civil Aeronautics Administration and should be retained pending its publication.

All amendments to the Regulations of the Administrator, as well as free manuals, are available from the CAA Office of Aviation Information, Dept. of Commerce, Washington 25, D. C.

Manuals and Regulations of the Administrator which are for sale should not be requested from the CAA but may be purchased from the Superintendent of Documents, Government Printing Office, Washington 25, D. C. Orders must be accompanied by check or money order made payable to the Superintendent of Documents. Currency may be sent at sender's risk. Postage stamps, foreign money or smooth coins are not acceptable. For shipment to foreign countries an additional amount of about 1/3 of the purchase price is required for postage. Remittance should be made by International Money Order payable to the Superintendent of Documents or draft on an American bank. A discount of 25 per cent is allowable to book dealers and quantity purchasers of 100 or more publications, on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be over-printed with any advertising matter.

Notice of the issuance of new regulations and manuals and a tabulation of those currently effective, are carried in the monthly CAA Journal which is available from the Government Printing Office at 75¢ (Domestic) and $1.00 (Foreign) per year.

REGULATIONS OF THE ADMINISTRATOR
