CIVIL AERONAUTICS MANUAL 40

U. S. Department of Commerce — Civil Aeronautics Administration

Civil Aeronautics Manuals and supplements thereto are issued by the Office of Aviation Safety, Civil Aeronautics Administration, for the guidance of the public and are published in the Federal Register and the Code of Federal Regulations.

Supplement No. 10 — March 18, 1953

SUBJECT: 40.31 Radio facilities.

40.31-1 Communication facilities required for domestic scheduled air carrier operational control.
40.31-2 Communication facilities required for air traffic control.

The Office of Aviation Safety announces an amendment to the interpretations and policies concerning radio facilities.

Sections 40.31-1 and 40.31-2, published on November 9, 1951, in 16 F. R. 11414 are amended by substituting "SR-382" for "SR-363".

An ink correction should be made to the interpretations and policies described above and contained in supplement No. 6 dated December 21, 1951, by inserting "SR-382" in lieu of "SR-363" wherever it appears in those interpretations and policies. This correction will be shown in any subsequent revision to §40.31.

John T. Warlick
for E. S. Hensley
Director, Office of
Aviation Safety
