Civil Air Regulations Amendment 21-18

Effective: March 23, 1954
Adopted: March 23, 1954

AIRLINE TRANSPORT PILOT RATING

CITIZENSHIP REQUIREMENTS

Currently effective section 21.12 of Part 21 requires that an applicant for a pilot certificate with an airline transport pilot rating be a citizen of the United States or an individual who has been admitted to the United States for permanent residence, or a citizen of any other country whose government grants or undertakes to grant to citizens of the United States airline transport pilot privileges and employment rights equivalent to those which such government grants to its own citizens.

The Administrator of Civil Aeronautics has experienced the utmost difficulty in implementing and administering these current citizenship rules. He has found that some of the provisions are in some cases impossible of determination and that in all cases inquiries are required, some of which it is estimated may take as long as two years for completion. Moreover, the Board finds that the current regulations are not serving the best interests of the United States in the manner originally contemplated and that the administrative detail of their implementation has unduly burdened the staff of the Administrator. In view of the foregoing, this amendment changes the citizenship requirements to permit an applicant regardless of citizenship to receive an airline transport pilot rating for which he is otherwise qualified upon passing the required technical examinations.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 21 of the Civil Air Regulations (14 CFR, Part 21, as amended) effective immediately:

By amending § 21.12 to read as follows:

21.12 Citizenship. An applicant for a pilot certificate with an airline transport pilot rating may be a citizen of any country or a person without nationality.
