UNITED STATES OF AMERICA
CIVIL AERONAUTICS BOARD
WASHINGTON, D. C.

Civil Air Regulations Amendment 25-4
Effective: June 27, 1947
Adopted: June 27, 1947

TEMPORARY PARACHUTE TECHNICIAN CERTIFICATES

The Civil Air Regulations require an airman to have in his possession a certificate issued by the Administrator when he is performing the duties of an airman. After June 30, 1947, the Civil Aeronautics Administration will issue all regular airman certificates from Washington, D. C. Thus, applicants for such certificates will be subjected to undue delay after successful completion of the prescribed tests, unless provision is made for the issuance of certificates valid while the regular certificates are being processed in Washington.

The purpose of this rule is to provide for the issuance of a valid interim certificate and to conform these rules to the other airman certification rules.

Effective June 27, 1947, Part 25 of the Civil Air Regulations is amended as follows:

1. By amending § 25.70, Duration, to read as follows:

25.70 Duration. A parachute technician certificate shall remain in effect unless it is suspended, or revoked, or until a general termination date for such certificate is fixed by the Board.

2. By adding a new § 25.701 to read as follows:

25.701 Temporary certificates. The Administrator or his authorized representative may issue a temporary parachute technician certificate for a period of not to exceed 90 days, subject to the terms and conditions specified therein by the Administrator.

By the Civil Aeronautics Board:

/s/ M. C. Mulligan
