TITLE 14-AERONAUTICS AND SPACE

CHAPTER I-FEDERAL AVIATION AGENCY

SUBCHAPTER E-AIRSPACE (NEW)

(Airspace Docket No. 63-CE-66)

PART 71-DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS (NEW)

Alteration of Control Zone

The purpose of this amendment to § 71.171 of the Federal Aviation Regulations is to alter the Columbia, Mo., control zone.

The Columbia control zone is designated, in part, with reference to the Columbia radio range. The Federal Aviation Agency has scheduled the decommissioning of this facility, and the prescribed radio range instrument approach procedure was cancelled on June 27, 1963. Therefore, action is taken herein to revoke the control zone extension based on the Columbia radio range west course. Controlled airspace requirements for this area will be reviewed at a later date under the CAR Amendments 60-21/60-29 implementation program.

Since the change effected by this amendment is less restrictive in nature than present requirements, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, the following action is taken:

In § 71.171 (27 F. R. 220-91, November 10, 1962) the Columbia, Mo., control zone is amended to read:

Columbia, Mo.

Within a 5-mile radius of Columbia Municipal Airport (Lat. 38° 58' 25" N, Long. 92° 21' 50" W).
