TITLE 14-AERONAUTICS AND SPACE

CHAPTER I-FEDERAL AVIATION AGENCY

SUBCHAPTER E-AIRSPACE (NEW)

(Airspace Docket No. 63-WE-1)

PART 71-DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE AND REPORTING POINTS (NEW)

Alteration of Amendments

On August 13, 1963, there were published in the Federal Register (28 F. R. 8282) amendments to the Federal Aviation Regulations which realigned VOR Federal airways Nos. 23 west alternate and 230 from the Los Banos, Calif., VOR to the relocated Fresno, Calif., VORTAC. These amendments were to become effective October 17, 1963.

Because of a delay in commissioning of the Fresno VORTAC until November 13, 1963, action is taken herein to alter Airspace Docket No. 63-WE-1 by postponing the effective date until November 14, 1963, the first aeronautical charting date after the relocated facility is commissioned. In addition, it has been determined that in VOR Federal airway No. 283, which is designated from Fresno to the intersection of Fresno 002° and Friant, Calif., 318° True radials, the Friant radial should be designated as the Friant 319° True radial.

Since the alteration of Victor 283 is editorial in nature, and since more than thirty days will elapse from the time of publication of the amendments as originally adopted to the new effective date, these changes are in compliance with Section 4 of the Administrative Procedure Act.

(Airspace Docket No. 63-WE-1)

In consideration of the foregoing, effective immediately, the following actions are taken:

1. Airspace Docket No. 63-WE-1 is amended as follows:

   "effective 0001 EST, October 17, 1963," is deleted and "effective 0001 EST, November 14, 1963." is substituted therefor.

2. § 71.123 (27 F. R. 220-6, November 10, 1963) is amended as follows:

   In V-283 "Friant, Calif., 318° radials," is deleted and "Friant, Calif., 319° radials." is substituted therefor.

(Sec. 307(a), 72 Stat. 749; 49 U. S. C. 1348).

Michael J. Burns

Acting Chief, Airspace Utilization Division
