Civil Aeronautics Manual 60

AIR TRAFFIC RULES

Supplement No. 4, CAM 60 dated July 1, 1959 **November 1, 1960**

SUBJECT: Deletion of reference to the New York International Airport in section 60.18–4.

Special Civil Air Regulation SR–442 (25 F.R. 8538), effective on October 15, 1960, established special air traffic rules applicable to all aircraft operations within the New York International Airport Traffic Area. On the effective date of this regulation, the provisions of section 60.18–4 were no longer applicable to operators of aircraft taking off from or landing at the New York International Airport.

Therefore, Supplement 60–30 (25 F.R. 9846), which was issued on October 12, 1960, amended section 60.18–4 by deleting all reference to the New York International Airport on the effective date of Special Civil Air Regulation No. SR–442.

This supplement is issued to remove this obsolete reference from the manual.
