FEDERAL AVIATION ADMINISTRATION

WP 3930.4AA

WESTERN-PACIFIC REGION

Effective Date:
October 1, 2007

SUBJ: AVIATION MEDICAL EXAMINERS FOR FAA EMPLOYEES AND APPLICANTS REQUIRING MEDICAL CERTIFICATION

1. **Purpose of This Order.** This order transmits Aviation Medical Examiner (AME) information to the Flight Standards, and Security and Hazardous Materials Divisions, Western Service Area - Enroute and Terminal, Sacramento Flight Inspection Field Office, and San Francisco International Field Office having employees requiring Federal Aviation Administration Aerospace Medical Certifications.

2. **Audience.** Branch level and above in the Flight Standards, Security and Hazardous Materials, and Aerospace Medicine Divisions in the Regional Headquarters; to the Western Service Area - Enroute and Terminal; and to the supervisory level in all field office and facilities associated with the Flight Standards and Security and Hazardous Materials Division, and the Western Service Area – Enroute and Terminal, as well as the Sacramento Flight Inspection Field Office and San Francisco International Field Office in the Western-Pacific Region.

3. **Where Can I Find This Order**? You can find this order on the Directives Management Information System (DMIS) website: https://employees.faa.gov/tools_resources/orders_notices.

4. **What This Order Cancels**. FAA Order WP 3930.4Z, Aviation Medical Examiners for FAA Employees and Applicants Requiring Medical Certification, dated October 1, 2006.

5. **Explanation of Policy:** This information is being provided in accordance with FAA Order 3930.3A, Chapter 3, Paragraph 33.

6. **Action:**

a. **Examination Locations**

1. Air Traffic Control Specialists assigned to the Oakland (ZOA) and Los Angeles (ZLA) Air Route Traffic Control Centers (ARTCC) will take their physical examinations at their respective Medical Field Office located within the facility. Air Traffic Control Specialists assigned to the Southern California (SCT) Terminal Radar Control (TRACON) will take their physical examinations at the Southern California TRACON Medical Field Office.

2. Examinations will be conducted in accordance with FAA Order 3930.3A, Air Traffic Control Specialist Health Program. The ZOA, ZLA and SCT Medical Field Offices will be utilized by personnel at nearby Air Traffic field facilities. Air Traffic Control Specialists assigned to terminal

facilities will take their examinations at the locations given in Appendix 1. All examinations will be taken at the designated Medical Field Office unless otherwise directed by the Regional Medical Office. All Applicants will take their examinations at the locations given in Appendix 2.

b. EKG

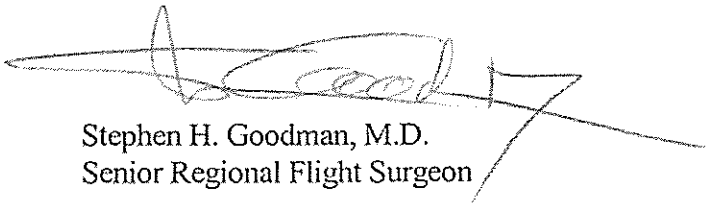

1. All applicants and retention (FAA employees) are required to take an EKG at the following timeframes. After an initial EKG at the time of the pre-employment physical, an EKG now is required:

a) only at the first regularly scheduled examination after age 40;
b) at the first regularly scheduled examination after age 45;
c) at the first regularly scheduled examination after age 50;
d) thereafter every 2 years in conjunction with the regularly scheduled examination.

2. While the required physical examination may be scheduled ANYTIME in the birth month, the actual birth date must be used to determine whether or not the EKG is due since a person does not attain a given age until their birthday. Thus if a person turning 40, 45, or 50 has their required examination before their birthday, the EKG is not due as they are still 39, 44, or 49 on the day of the exam. If the exam is scheduled after their birthday, they have attained 40, 45, or 50 then the EKG is due since it is the first regular exam after the respective ages. In those cases where the exam is before the birthday the EKG is therefore not due, the next physical exam will be the first regularly scheduled examination after the respective ages and the EKG will be due at that exam. After an EKG is done at the first regularly scheduled examination after age 50, the actual birthday is no longer a factor as the EKG is due every two years at the time of the physical. **The changes require the scheduler to be aware of the birth date and the date of exam when scheduling the EKG.**

c **Air Traffic Control Specialists assigned** in Guam and Kwajalein will take their examinations at the locations given in Appendix 3.

d. **Flight Standards, Civil Aviation Security, and FIFO** personnel, requiring job related physical examinations, will take their examinations at the nearest location to their field office listed in this Order.
